MR. SCAIFE—I understand that absolutely nothing has been done about it. Now I also found, senator, before I took the bull by the horns, so to speak that there was disloyalty in the government. As we all knew, we had an aircraft program which promised 25,000 fighting planes to be delivered in France before an effective army got overseas. The result was that there was something—approximately close to a billion doi.

Favoring the slender silhouette, these frocks achieve individuality by means of deft trimming touches, by collars and cuffs of linen or crepe de chine; others have novel button adornment. Simplicity, however, is the keynote of their charm. Fleurelle is a new knitted silk fabric, unexcelled for wear.

Five New Styles In Spring Oxfords, \$11

JOUNG Men in particular will be interested in these new Oxfords because they're right in line with the new suit styles -they're built over very comfortable lasts, but reveal a good deal of attention to style detail.

For instance, there's a soft-toed blucher model with outline stitching running well up toward the lace-holes. Another has a half-wing tip, brass eyelets, and perforated collar around the top.

Then there's a box-toed Shoe in a new, rather reddish shade of tan, with perforated decorations, and another with facing and collar of darker tan. Finally there's a smart gunmetal calf Oxford with perforated box toe.

These all, of course, embody leathers of the highest quality in accordance with our own specifications.

This time he did press her hand to his cheek, to his lips. Had that been the young Jack Verity, no power on earth could have induced him to give a demonstration such as this of young Lord Oddley's! Had that been Violet Verity in Margaret's place. Of course, one could not imagine her there, any more than she herself could understand the type of lovers who allow quite passionate kisses to the tune of

Them she would have found incredible. She did not even know it meant that this Jim McKee inherits a sin at she herself was just far from cold blooded. Caresses, to her, meant smething much too disturbing. Even the least caress, even the caress by voice she could not have endured, in the presence of a third person. Men find it hard to believe in what utter torpor the senses of a girl can sleep. So often ignorance takes on the form of coquettishness, of deliberate trifling, even of zestful cruelty! "My precious," coaxed Margaret in a tone that reminded me of Violet Ventry's own voice cooling over her baby's little, tea cosy shaped pillow. "My precious Did he think they were talking to Yu-Yu, then?"

New York, March 27.-[Special.]-Dr. William Norman Guthrie, rector of St. Mark's in the Bouwerie, on book was used only to get "atmosphere." I read the press note wrong.

Awfully sorry!

St. Mark's in the Bouwerie, on his return to New York tonight replied to Bishop William T. Manning's decree that the church be deprived of Episcopal visitation and ministration as the result of the religious dance service last Sunday.

Dr. Guthrie, in a letter, says his

proposal to judge the service by a se-lected committee was treated by the that the bishop is in error when he no! GLORIA SWANSON IS NOT Stated that evening prayer was not said on Sunday, and he contends that the bishop's acts show the undemocratic spirit in his "mother church."

The rector with his warders and vestry, after holding a special meeting at St. Mark's today, decided, with a view to making their positions clear, to publish the correspondence which passed between Dr. Guthrie, his vestry, and Synod hall, just previous to the holding of the ritual service in honor Past Potentates Tonight of the Virgin Mary. In a foreword attention is again directed toward the bishop's error, in regard to the non-celebration of evening prayer, and be-lief is expressed that publication of the letters will place the attitude of St. Mark's towards the bishop in a dif-

ferent light. St. Mark's announced today that the bishop's recent measure will make no difference in any of the forthcoming activities of the church. The confirma-tion candidates will be sent to Bishop Lyons of New Jersey, as in the past. pagan " services and one eurythr

Tis rumored that one bachelor retort was: "Well, they've been learning for thirty years and look at the divorce records now. Perhaps the shorter the course the merrier the life."

Anyway, there is no question but that a six weeks' course is better than no knowledge on how to pick and keep a wife. What marriage needs more than anything else is preparatory school work and more serious preliminary thought.

The Y. W.'s course to fit girls for marriage were started early in the 90's. In the early demand for better home knowledge the classes were recruited from the ranks of married women desirous of knowing more of the care of children, the care of the family digestive works, and human nature as one entertains it at the hearthside. The air of the Y. W.'s course is to save marriage from home wrecking food and to provide each student with a knowledge of practical psychology. This latter study it believes to be as important for the engaged or would-be engaged girl as any it has to offer. Miss Jeanette Hammill of the Ballard school of the Y. W. C. A. believes more marital difficulties are due to the inability of both men and women to see the other person's view than from any other cause. In fact, all the miseries of the world she thinks may be ascribed to this identical inability.

I think she is a seifish and inconsiderate young woman, Samuel, and it is well for you that you have found it out. Mexico City, March 27.—Rebels
under Guadalupe Sanchez yesterday
suffered an overwhelming defeat at
three different points in the state of
Vera Cruz. The war department, following its plan of campaign initiated
shortly after the outbreak of the revolution, for the last week has been
contracting the ring of steel drawn
around the rebels until they were
driven into a restricted space and
forced either to fight or surrender.

The battle yesterday, which continued five hours, consisted of three separate, yet interrelated engagements,
all of which resulted in defeats for the
insurgents, who, scattering in various

A waxed and polished floor of Armstrong's Jaspé Linoleum — a two-tone effect in gray, brown, blue, or green

"Yes, Madam, we really mean Linoleum for your Living-Room"

It's Jaspe, the New Armstrong's Linoleum Floor Two things have been done to linoleum that make it suitable for the floor of your living-

room, or any other room. First, the colors and designs of new, modern linoleum are different, and better

than you can believe until you see them. Second, a way has been found to lay linoleum without tacks that makes it a smooth, permanent, water-tight floor without visible seams.

Among the new kinds of Armstrong's Lino-leum are the Jaspes. These are beautiful, rippling, two-tone effects in brown, gray, blue, and green. Jaspé floors can be selected to harmonize perfectly with walls and furniture, and your rugs are even more attractive when spread upon them.

With a floor of Armstrong's Jaspé Linoleum, the color harmony of your room builds itself up naturally and easily. The floor aids your decora-tive instinct instead of thwarting it. You can select curtains, shades, draperies with a sure eye to just how they will combine or con-trast with the floor, which is always

the foundation note of a room. How fine linoleum should be laid

The modern way of laying linoleum has two objects—beauty and permanency. A lining of builders' deadening

felt is first pasted to the wood underfloor. An experienced linoleum layer cements the linoleum to this felt, closely joining and waterproof-ing the edges and extending the linoleum beneath the moulding round the walls.

Then, no matter how much your wood floors expand or contract in summer or winter, the linoleum doesn't crack, doesn't stretch, and doesn't need retrimming.

Naturally, cementing linoleum down costs more than tacking, but such a floor is always smooth

and tight, and if waxed occasionally will stay fresh and brightlooking for years and years. Write our Bureau of

Interior Decoration

This bureau, in charge of Mrs. Hazel Dell Brown, an experienced Linoleum permadecorator, will help you to plan nently cemented in color schemes for new homes or place requires no particular rooms. Mrs. Brown will foor is smooth and leum designs for different rooms, and tell you how to take care of them. We

will send you a sample of Armstrong's Jaspé Linoleum, a 24-page booklet, "New Floors for Old," and direct you to good stores near you that can supply Armstrong's Linoleum in the new dec-orative designs and do good laying. This help is entirely free.

Most of the subject was too technical for outline here. But, by and large, the underlying cause for much of the waste in the last twenty years, the motor age, has been due to the need of promoters to cash in quick.

The sort of promoting we have had has been aided by the Sherman law, which made the big companies wary of grabbing new fields.

Of course, they got them eventually, but usually after the gas had been blown away or leaked, and the pressure lowered in seeking cheaper oil by day the acts of over \$22,000,000 after deducting what remained reachable by pumps.

In this matter we do not face a normal state of business. It is business in contact with government.
